Directions to Rancho Casitas from Highway 1-Mexico

1. Continue to head south out of Ensenada on Highway 1 (You will disregard the “Estero Beach” turn off and continue through the towns of Chapultepec and Maneadero).

2. Go **exactly 5.0 miles straight** past the turn off for the “La Bufadora.” Don’t turn towards the Bufadora just mark your mileage. Surrounding landscape will become very remote and desert like. As you head down a grade you’ll see a small white sign on the right that says “Puente El Zorrillo.” (See Arrow on Picture to right)

If you want a safe taco stop, use Tacos de Cachanilla, on the right exactly 0.7 miles beyond the Bufadora turnoff. Quesotacos are to die for. There is also a Pablanos across the street from this taco shop.

3. Slow down as you cross a short, narrow bridge that crosses a small drainage culvert. (To the left of this will be a paved pull out that leads to a dirt road that is marked “Pipila.” Take this dirt road) (See arrow in Picture on right)

4. Take this dirt road for 7.1 miles **PLEASE SET YOUR TRIP METER HERE** past several ranches with names like Agua Viva and Vaquero. (At any point on the dirt road, **when in doubt**, just **stay to the right**) You will need to go through **6 different CATTLE GATES** (parallel pipes buried in the ground across the road) before you are even close.

IMPORTANT NOTE IF TOWING A TRAILER: The last **three CATTLE GATES** are very narrow and require you to peel back the barbed wire bypass gate on the side of the cattle gate. We have lost several tires and axles by those who ignore this warning.

5. At the Fork after the sign for the Vaquero Ranch, veer **right** to stay on the main road. (See picture on right)

(There will be several dry streambed crossings with steep approaches and rough rutted roads. A couple miles after the electric power poles stop following the road there will be a sandy stretch of road)

6. At the “Y” intersection marked with white stones and red reflectors (maybe an orange cone too) take a **right!** (See Picture to the right) **DO NOT MISS THIS ONE!!!**

7. Take this less improved, narrower, dirt road 2-3 miles past a barbed wire fence/gate and past an iron swing gate (leave the gates as you find them: close if you find it closed).

8. After following a streambed through a dense grove of oaks you will pop over a steep rise and see a ranch house and trailers off to the right(don't go up there) and continue **down** to the right of the corral and barn building, following the dirt road for another mile. That is veer **right** around the corral and barn complex.

9. Turn **left** when you see the sign for Rancho Casitas. (See picture on right)

The camp comprised of loft homes should be in sight after coming over rise. Go to the **right** of these loft houses and follow the road up to left to the large dining hall above the Camp. Camp staff will greet you, but if you are arriving very late a white board on the **bright**

Orange Loft house – La Bodega will have instructions for the cabins that you will sleep in. If arriving late, look for your name or group name on the white board, as we will mark the houses you will sleep in, or the ones that are already full.
